

Introduction and Qualitative Analysis

This report, in accordance with Markets in Financial Instruments Directive (MiFID II), provides information on the Top-5 execution venues and counterparties/brokers used by Generali Asset Management S.p.A. SGR ("GenAM") to provide the reception and transmission of orders ("RTO") service only provided by GenAM vis a vis professional clients.

GenAM is able to provide the service of reception and transmission of orders through the authorization received from the Bank of Italy. The report refers to the activities for the year ended 31st December 2024.

The report provides the analysis of the asset class as defined by MiFID II split by execution and transmission.

This report ("Report") is published by Generali Asset Management S.p.A. SGR to comply with its obligations under Commission Delegated Regulation (EU) 2017/576 and article 27 (6) of Directive 2014/65/EU, as implemented in the Conduct of Business Rules of the Financial Conduct Authority (collectively, "MiFID II RTS28").

The main factor considered by GenAM to ensure best execution is the price of the financial instrument being the object of the order.

In addition to price, the Company may, in order to obtain best execution, take into account the following factors, also in relation to the characteristics of the order to be executed:

- market impact;
- liquidity;
- nature and size;
- costs (as commissions and other trading costs);
- speed of execution;
- likelihood of execution and settlement.

With regards to close links, conflicts of interest and common ownerships with any execution venue or broker or counterparty used during 2024, GenAM adopts a conflicts of interest policy in connection with RTO service and in the deployment of such service has also used the following intermediaries, always complying with the measures provided under its conflicts of interest policy:

- Mediobanca S.p.a. is the main shareholder of Assicurazioni Generali S.p.a. (currently holding 12.78% shares);
- Banca Generali S.p.a. is an entity belonging to the Generali Group whose ultimate parent company is Assicurazioni Generali S.p.a."

GenAM does not receive nor pay any monetary benefit from/to the execution venues nor from/to any intermediaries involved in the transaction. GenAM receives non-monetary benefits in the form of market analysis and commentaries from the execution venues and intermediaries within the conditions set out under the applicable internal and external regulations. GenAM does not structure or charge its commissions in such a way as to discriminate unfairly between execution venues.

The brokers and counterparties listed in the Annex A of the "Best Execution Policy" are subject to an internal authorization process. The final approval of the counterparty is subject to the decision of GenAM Board of Directors. The List of authorized counterparties is maintained and kept up to date on an ongoing basis. Any amendment made to the above-mentioned Annex A is published on <https://www.generali-investments.com/global/en>. During the year ended 31st December 2024 new intermediaries have been included in order to provide an adequate service of the execution to the clients.

Where possible, GenAM adopts Transaction Cost Analysis (TCA) aimed at estimating the efficiency and implicit costs of executing an investment decision in the market. This is measured using different indicators, such as, inter alia, the implementation shortfall and the difference between the average execution price and the bid or offer price available in the market when the trade is executed.

Execution Notes:

Passive Order: refers to an order entered into the order book that provided liquidity.

Aggressive Order: refers to an order entered into the order book that took liquidity.

Directed Order: refers to an order where a specific broker/firm was specified by the client prior to the execution of the order.

As regards SFTs, the information included in this report only refers to "b.I. Debt instruments" - Bonds and "b.II. Debt instruments - Money markets instruments" owing to the fact these are the only financial instrument categories in connection with which SFTs can be executed.

ESMA requires that EU Equity instruments (Shares and Depositary Receipts) should be classified according to their liquidity as determined under the tick size regime as set out in Directive 2014/65/EU

1. Tick size liquidity bands 5 and 6 (from 2000 trades per day) – Highly liquid share as shown below
2. Tick size liquidity bands 3 and 4 (from 80 to 1999 trades per day) – Medium liquid share as shown below
3. Tick size liquidity band 1 and 2 (from 0 to 79 trades per day) – Less liquid share as shown below

All others non EU Equity instruments are classified under table m "Others Instruments"

BNP PARIBAS SA - LEI:R0MUW5FP8M8PRO8K5P83	11,85%	13,02%	2,39	34,71	62,9
GOLDMAN SACHS GROUP INC THE - LEI:784F5XWPLTKTBV3E584	11,10%	7,73%	1,35	26,7	71,95
Notification if < 1 average trade per business day in the previous year NO					

The main factor considered by GenAM to ensure best execution is the price of the financial instrument being the object of the order.

In addition to price, the Company may, in order to obtain best execution, take into account the following factors, also in relation to the characteristics of the order to be executed:

- market impact;
- liquidity;
- nature and size;
- costs (as commissions and other trading costs);
- speed of execution;
- likelihood of execution and settlement.

GenAM adopts Transaction Cost Analysis (TCA) aimed at estimating the efficiency and the costs of executing an investment decision in the market. GenAM has outsourced the TCA to an external and independent provider.
