

## Introduction and Qualitative Analysis

This report, in accordance with Markets in Financial Instruments Directive (MiFID II), provides information on the Top-5 execution venues and counterparties used by Generali Investments Partners S.p.A. ("GIP"). GIP transmits all the orders, relating to individual portfolio management service provided only to professional client, to Generali Insurance Asset Management S.p.A. ("GIAM") in force of the reception and transmission of orders ("RTO") agreement.

GIAM is able to provide the service of reception and transmission of orders through the authorization received from the Bank of Italy. The report refers to the activities for the year ended 31st December 2022.

The report provides the analysis of the asset class as defined by MiFID II split by execution and transmission.

This report ("Report") is published by GIP to comply with its obligations under Commission Delegated Regulation (EU) 2017/576 and article 27 (6) of Directive 2014/65/EU, as implemented in the Conduct of Business Rules of the Financial Conduct Authority (collectively, "MiFID II RTS28").

As described in the GIP policy on best execution, to ensure the best execution for its clients, GIP transmits all the orders relating to the provision the individual portfolio management service to GIAM as provider of the RTO service. For this reason, GIP on one side applies its own transmission strategy to GIAM and on the other side relies on the GIAM's best execution policy for all the order transmitted to the latter.

The main factor considered by GIAM to ensure best execution is the price of the financial instrument being the object of the order.

In addition to price, GIAM may, in order to obtain best execution, take into account the following factors, also in relation to the characteristics of the order to be executed:

- market impact;
- liquidity;
- nature and size;
- costs (as commissions and other trading costs);
- speed of execution;
- likelihood of execution and settlement.

With regard to the close links, conflicts of interest and common ownerships with any execution venue or broker or counterparty used during 2022, as already highlighted GIP transmits all the order related to its individual portfolio management service to GIAM, that is a company belonging to its Group, in compliance with GIP conflicts of interest policy. In turn, GIAM adopts a conflicts of interest policy in connection with the RTO service and in the deployment of such service has also used the following intermediaries, always complying with the measures provided under its conflicts of interest Policy:

- Mediobanca S.p.a. which is the main shareholder of Assicurazioni Generali S.p.a. (currently holding 12.77 % shares)
- Banca Generali S.p.a. which is an entity belonging to the Generali Group whose ultimate parent company is Assicurazioni Generali S.p.a.

GIP does not receive nor pay any monetary benefit from/to GIAM.

In addition, GIAM does not receive nor pay any monetary benefit from/to the execution venues nor from/to any intermediaries involved in the transaction. GIAM receives non-monetary benefits in the form of market analysis and commentaries from the execution venues and intermediaries within the conditions set out under the applicable internal and external regulations. GIAM does not structure or charge its commissions in such a way as to discriminate unfairly between execution venues.

GIAM in providing the RTO service to GIP uses only the brokers and counterparties listed in the Annex A of the GIAM "Best Execution Policy". Those entities are subject to an internal authorization process. The final approval of the broker/counterparty is subject the decision of GIAM Board of Directors. The List of authorized counterparties is maintained and kept up to date on an ongoing basis. Any amendment made to the above-mentioned Annex A is published on <https://www.generali-investments.com/global/en>.

Where possible, GIAM adopts Transaction Cost Analysis (TCA) aimed at estimating the efficiency and implicit costs of executing an investment decision in the market. This is measured using different indicators, such as, inter alia, the implementation shortfall and the difference between the average execution price and the bid or offer price available in the market when the trade is executed.

### Execution Notes:

Passive Order: refers an order entered into the order book that provided liquidity.

Aggressive Order: refers an order entered into the order book that took liquidity.

Directed Order: refers an order where a specific broker/firm was specified by the client prior to the execution of the order.

As regards SFTs, the information included in this report only refers to "b.I. Debt instruments" - Bonds and "b.II. Debt instruments - Money markets instruments" owing to the fact these are the only financial instrument categories in connection with which SFTs can be executed.

ESMA requires that EU Equity instruments (Shares and Depositary Receipts) should be classified according to their liquidity as determined under the tick size regime as set out in Directive 2014/65/EU

1. Tick size liquidity bands 5 and 6 (from 2000 trades per day) – Highly liquid share as shown below
2. Tick size liquidity bands 3 and 4 (from 80 to 1999 trades per day) – Medium liquid share as shown below
3. Tick size liquidity band 1 and 2 (from 0 to 79 trades per day) – Less liquid share as shown below

All others non EU Equity instruments are classified under table m "Others Instruments"

Venues - Execution strategy

Reference Year 2022

Class of Instrument					
b.I. Debt instruments - Bonds					
Top 5 Venues ranked in terms of volume (descending order)	Proportion of volume executed as a percentage of total in that class	Proportion of orders executed as percentage of total in that class	Percentage of aggressive orders	Percentage of passive orders	Percentage of directed orders
